REPLACE SMALL GLOBE, PAR, R AND A LAMPS
OF 10 TO 25 WATTS

SAVES UP TO 90% PLUS OF THE ENERGY

VERY UNIFORM LIGHT

FULLY DIMMABLE

WIDE ARRAY OF BRIGHT COLORS

GLOBE FEATURES AND BENEFITS

VERY LOW POWER USE	The Globe lamp can pay for itself in power saving alone in less than 6 months.
VERY LONG LIFE	The Globe can last 133 times longer than a typical A or G style lamp and 40 times longer than a typical PAR or R lamp. There are no fragile filaments to be broken by handling or vibrations.
VERY LOW HEAT	The Globe lamp generates 95% less heat than a standard lamp and has no projected heat. While reducing your AC load significantly. 120VAC standard operation.
VERY UNIFORM LIGHT	The G20 globe has very uniform lighting without hot spots. In either a medium or intermediate base.
MANY COLORS	These lamps come in many colors. White is in a pure white 5,000 deg K or 3K warm white light. Choose between Red, Amber (yellow), Green, Blue and Green at the present. Or color changing!
CLEAR, BRIGHT LIGHT	The bright, clean light of the Globe and its brilliant colors will enhance all your applications.

Standard colors available will make your facility stand out with brilliant illumination. It will be distinctive and attract the most attention.
SPECIAL ORDER
Color changing and custom colors available.

**USE IN TRACK, ACCENT AND DECORATIVE LIGHTING FIXTURES
FOR ALL GENERAL LIGHTING AND THESE SPECIAL APPLICATIONS**

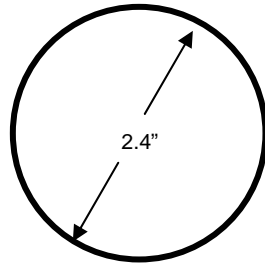

DISPLAY LIGHTING	The bright, clean light of the Globe and its very low 1.6 watts and heat make it an excellent lamp for artwork, display cases and decorative area's.
ACCENT LIGHTING	The crisp, brilliant colors of the Globe makes it the perfect choice for hi-lighting all types of displays, architectural accents, casinos, theaters, theme parks and public lobbies.
OUTSIDE APPLICATIONS	This G20 globe can operates down to -20°F and generates very little heat, making it a natural for cold climates and displays.
HARD TO REACH AREAS	Since the Globe seems to last forever it is the obvious choice for lighting that is hard to maintain.
ROUGH SERVICE AREA	The G20 has the standard frosted glass globe. There are No fragile filaments which means it will last for a long time in elevators, etc or in high vibration areas.
