REPLACEMENT FOR PAR, BR AND A LAMPS OF  
 10 TO 20 WATTS

SAVES OVER 94%+ OF THE ENERGY

FOR INDOOR / OUTDOOR USE

FULLY DIMMABLE

CLEAR, BRIGHT WHITE LIGHT AND COLORS

**PAR30I FEATURES AND BENEFITS**

<b>VERY LOW POWER USE</b>	The PAR25 lamp can pay for itself in power saving alone in less than 6 months.
<b>VERY LONG LIFE</b>	The PAR25 can last 133 times longer than a typical A style lamp and 40 times longer than a typical PAR or BR lamp.
<b>VERY LOW HEAT</b>	The PAR25 lamp generates 94% less heat than a standard lamp and has no projected heat reducing damage to fixtures, displays and making its environment more pleasant.
<b>ALL WEATHER</b>	This lamp was made for indoor and out door applications
<b>UNBREAKABLE</b>	The shatter resistant polycarbonate safety housing is nearly indestructible and there are no fragile filaments to be broken by handling or vibrations. Includes a safety outdoor lens
<b>CLEAR, BRIGHT LIGHT</b>	The bright, clean light of the PAR25 enhances color contrast and color rendering, making objects and surroundings appear crisp and vibrant. For both indoor and outdoor applications

Revolutionary new PAR-25 LED Pack technology make this proprietary design the first LED lamp for use in general lighting applications. Available in many light colors to replace lamps of up to 30 Watts and all the lamps in between. Two beam spreads give light distribution from narrow spot to very wide flood.

SAVINGS IN ENERGY, LAMP REPLACEMENT AND LABOR  
 CAN MAKE THIS LAMP THE BEST EVER

**USE IN RECESSED, DOWNLIGHT, TRACK LIGHT, ACCENT AND TASK LIGHTING FIXTURES  
 FOR ALL GENERAL LIGHTING AND THESE SPECIAL APPLICATIONS**

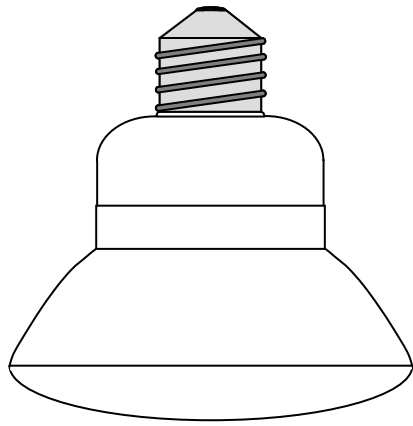

<b>GENERAL LIGHTING DISPLAY AREAS</b>	The bright, clean light of the PAR25 and its very low UV and heat make it an excellent lamp for artwork, display cases, cloth and other sensitive materials. For both indoor and outdoor applications.
<b>ACCENT LIGHTING</b>	The crisp, white light of the PAR25 makes it the perfect choice for hi-lighting jewelry, cosmetic accessories, plantings, displays and interior architectural design.
<b>REFRIGERATION</b>	The PAR25 operates down to -20°F and generates very little heat making it a natural for refrigerated storage and displays.
<b>HARD TO REACH AREAS</b>	Since the PAR25 seems to last forever. It's the obvious choice for lighting in hard to maintain area's.
<b>ROUGH SERVICE AREAS</b>	The polycarbonate safety housing is very strong and having no fragile filaments means it will last for a long time as a work light, equipment task light and in high vibration areas.
