- SINGLE OR DUAL VOLTAGE

MADE IN THE USA

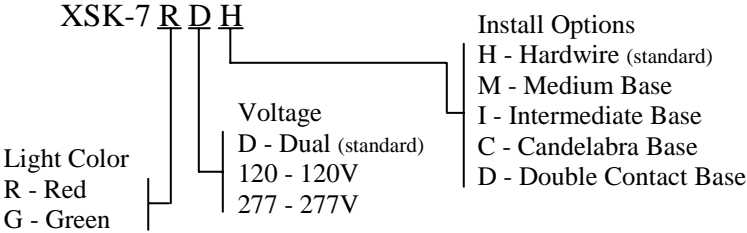

**FIREFLY LED EXIT SIGN CONVERSION KIT**

<b>LOWEST POWER USE</b>	At only 1.0 or 1.5 Watts per sign it uses less energy than any standard LED exit sign conversion kit and gives the fastest possible payback.
<b>HIGH FACE LUMINANCE</b>	Using the latest LED technology, the new lens and reflective strip creates a very bright exit sign face.
<b>UP TO 10 YEAR WARRANTY</b>	10 year warranty for red and 7 years for green ensures the converted sign will operate maintenance free for a long time.
<b>EASY INSTALLATION</b>	Install in 5 minutes - simply remove the old lamps, connect two wires, press LED and reflective strips in place and replace lens.
<b>DUAL VOLTAGE</b>	Select either 120V or 277V with a simple two wire connection.
<b>INSTALLATION OPTIONS</b>	Hard wire with two connectors or insert one of four optional screw or press in lamp bases into the old socket.
<b>PROPRIETARY DESIGN</b>	Unique, patent pending design insures long trouble free life that exceeds UL-924 performance requirements.

**ALL KITS INCLUDE:**  
Adhesive backed LED strip  
Adhesive backed reflector  
Red or Green polycarbonate lens
